AARON YELTON

ayelton IT consulting

ayelton.com/ayelton@ayelton.com

847.644.1690

(Corporate or at your home)

With over 20 years experience as both a SR IT consultant and IT Director in the creative industries, I will provide only the best possible services for you and your company.

- General Maintenance (Remote or on-site)
- Hardware purchasing, installation and maintenance
- Software installation and license management
- Mail server administration
- Windows/Mac integration
- Network and wireless network design and security
- Data backup and recovery
- Asset and archive management
- iPad and iPhone network integration
- Emergency support
- Video Surveillance - Install surveillance systems, allowing you to keep an eye on your business, home, pet, or used for general security. Can easily be setup to be viewed from mobile devices such as your own iPhone.
- Energy conservation - I've acquired over the last few years a fairly vast knowledge of different ways to conserve energy, such as using high efficiency LED light bulbs, or the most efficient computer setup in the best power savings mode.

If an IT emergency, you can reach me at: 847.644.1690
(non IT related, please dial 911) ;)

Life is a puzzle... your computer doesn't need to be.
